Alison-

Attached please find a letter notifying NMFS of the Public Notice of the draft NPDES permit for Pilgrim Nuclear Power Station. The re-issuance of a NPDES permit for this facility may affect species with designated Essential Fish Habitat in the area; EPA's assessment of these impacts is provided in the attached Fact Sheet (Section 12, p. 66). All of the permit documents were provided to you with the public notification and are also available at <https://www.epa.gov/aboutepa/public-notice-draft-permit-pilgrim-nuclear-power-station-plymouth-ma-ma0003557>.

Your office will receive a hard copy of the attached letter by U.S. Mail shortly. If you have any questions about the EFH assessment please don't hesitate to contact me.

Thank you,

Danielle
